

# JOINT ENVIRONMENTAL TRAINING COORDINATING COMMITTEE

November 27, 2013

Dear Environmental Training Supporter,

We are writing to notify you of an opportunity to reach customers across the state of Maine with minimal effort. A financial contribution to JETCC, as outlined below, will allow you to reach your target customers while assisting with JETCC's sole mission of providing high quality training to Maine's environmental professionals. Each year JETCC trains approximately 2,000 individuals with some 40 different topic specific sessions relating to the water pollution control industry. We also continue to provide the Management Candidate School which was created in 2009 to ensure there will be qualified professionals to move into the management of Maine's wastewater and drinking water systems.

**Your contribution distinguishes your company as a supporter of JETCC's training program, and the operators of industrial and municipal pollution prevention facilities across the State.**

Your contribution will be acknowledged with a confirmation certificate and will be publically recognized on a donor list posted on the JETCC website. Contributions in support of our training classes will be recognized at each class.

We encourage you to call Leeann Hanson at (207) 253-8020 to obtain information on this program. **On behalf of the JETCC Board of Directors, I would like to thank you for supporting water and wastewater training in Maine.**

Sincerely,

Darold Wooley, Chairman  
JETCC Board of Directors
